To

The Additional Secretary to the
Government of Mysore, Bangalore.

Sir,

With reference to your letter No.M. 8552 dated 12th August 1950 asking me to suggest the names of two Second Class Health Officers in place of Dr.E.Anantha Rao, I write to state that I have explained to you in person, during our discussion on the 16th afternoon, the difficulty in suggesting the names of Second Class Health Officers for being posted to Myso e City. The enclosed list shows the names of first and 2nd class Health Officers according to seniority in this Department. The posts that are held by them at present, are noted against each.

2) Among the first class Health Officers I can suggest in place of Dr.Anantha Rao Dr.A.S.Venkatachalam. The other two names among the first class Health Officers have already been suggested.

3) Dr.S.R.Bhombore is on a special job and he cannot be disturbed. Dr.Ananthaswamy is also in a special post and he cannot be disturbed either. Dr.Shama Sastry and Dr.S.D.Narayana Gowda are still abroad. Dr.V.Ramakrishna is physically not in a position to be posted to executive work. Dr.Sundara Rao is in a special job and he cannot be disturbed.

4) The names of Drs.K.S.Nanjundaiah, S.P.Anikar and Puttabhatta are being considered for filling up vacancies elsewhere,and I feel that being junior officers they are not in a position to take on the responsibilities of the Health Officer of the big city of Mysore.

5) If any names could be suggested at all, the only two that I could think of are those of Dr.K.S.Nanjundaiah and Dr.S.G.Sampath Iyengar. Dr.K.S.Nanjundaiah is however, anxious to work with the Rockefeller Foundation in Sakalespur and it is not likely that he will be available. Owing to this, and also as stated before, there are other transfers to be suggested for filling up the post

post of Health Officer Shimoga District which is now vacant, the only name, that could be suggested is that of Dr.S.G. Sampath Iyengar.

6) The other officers are all very juniors in service and cannot be recommended for this important place.

7) In this connection, I should like to state that as I have elsewhere informed Government, that the posts of Health Officer, Mysore City and Kolar Gold Field Sanitary Board area are very important places and that at one time they were always being occupied by Senior First Class Health Officers. For some reason this is not being observed during recent years and the Junior Officers that are being posted to these places have always been feeling that it is very difficult for them to maintain themselves on the poor salaries that they get in the manner that is required of them. I agree with them in this, having had personal experience myself. I request Government therefore, that it should be made imperative that these Health Officers should be from the cadre of first Class Health Officers.

(8) I request that Government may kindly consider this suggestion and recommend to the Mysore City Municipality to select an officer from among the first class officers.

Yours faithfully,

J. Ramakrishnaiah 7/1/18
Director of Public Health.

Subject: Re-organisation of the Health Section of the Mysore City Municipality.

With reference to your letter No.C3.P.9/50-51 dated 25th April 1950 on the above subject, I am directed to state that the correct procedure would be for the Municipal Council to consult the Director of Public Health in connection with the re-organization of the Health Section and he will, in consultation with the present Health Officer, formulate suitable proposals in this behalf. This will also avoid the need for incurring extra expenditure on the deputation of an officer.

Yours faithfully,
